

Tue, 05 Apr 2022 09:38:05 -0400 I just voted to cap insulin costs at \$35 per month. Hello Jon, No one should have to choose between paying for life-saving medication and putting food on the table. Yet, for too many, the price of insulin has continued to skyrocket, putting basic health care dangerously out of reach. House Democrats are saying no more - Yesterday, I voted to cap the out-of-pocket cost of insulin at \$35 per month. Should insulin be affordable for everyone? This critical and urgent legislation will ensure that the 37 million Americans with diabetes can afford to care for themselves and their families. It will save lives and save families money as we continue to recover and rebuild from the pandemic. Democrats are listening to the American people, responding to their needs, and fighting to ensure that in this country, health care is a right, not a privilege for the wealthy. Sincerely, Congresswoman Katherine Clark Assistant Speaker of the House of Representatives
