This should come as no surprise since President Biden's policies have turned a blind eye to the growing problem at our border. The insanity doesn't end there. The Biden Administration reportedly is considering a policy to offer \$450,000 to a group of illegal immigrants for their hardship while breaking our laws. To put that number into context, these illegal immigrant families would be paid more than an American family who lost a loved one fighting for our country and freedom. As your Representative in Congress, I want to hear directly from you.
