record Dear Friend, January's border numbers just came in and they broke

records - again. In the first month of the calendar year, we had the highest

January border encounters ever on record. And those numbers are a

154%(<https://homeland.house.gov/wp-content/uploads/2024/02/Jan-2024-Startling-Stats.pdf>)

increase from when Biden took office. In fact, there have been 7.2

million(<https://homeland.house.gov/wp-content/uploads/2024/02/Jan-2024-Startling-Stats.pdf>)

encounters at the southern border over Biden's presidency. That's more than

double the population of Kansas. But let's be clear - the migrant crisis is

eclipsing the real story behind the numbers. Border crossings consist of people

from all over the world, not just Mexico and Central America. Since Oct. 1,

2023 - the start of the fiscal year -

18,755(<https://homeland.house.gov/wp-content/uploads/2024/02/Jan-2024-Startling-Stats.pdf>)

Chinese nationals have been encountered at the southern border. And in that

same time,

6,778(<https://homeland.house.gov/wp-content/uploads/2024/02/Jan-2024-Startling-Stats.pdf>)

pounds of fentanyl has been seized, which is enough to kill more than a billion

people. In February, the House impeached Homeland Security Secretary Alejandro

Mayorkas - a first step in bringing accountability for the reckless Biden

administration policies that have resulted in record-breaking surges at our

southern border. The next step is for the Senate to bring up the House-passed

H.R. 2, which is the toughest border security legislation in decades. It passed

the House nearly 300 days ago. I recently published an op-ed discussing our

border and the need for tough action to end the crisis. You can read it
