Dear Friend, Welcome to the 4th Congressional District! Because of the decennial process known as redistricting, you are likely in a new congressional district this year. The 4th District has 17 counties, including parts of Pawnee County. You can view an interactive map on my website to see the new lines for the 4th District. (<https://estes.house.gov/district/interactivemap.htm>) Throughout the year, I like to reach out to Kansans and ask about your priorities. We are just a few months into 2023 and the new Congress, and the new House majority has already passed legislation to prevent IRS overreach, protect retirement savings accounts, end the COVID-19 national emergency, and safeguard our Strategic Petroleum Reserve. But I know there's still more we need to do to secure our border, lower prices and reinvigorate our economy. Before we're too much further into the year, I want to know the most critical issues for you. Your opinion is important. As we enter the final month of the first quarter, what's important to you? Click to take the one-question survey. (<https://estes.house.gov/forms/form/?ID=66>)
