!important; height: auto !important;} } Andrew -- I have to be honest with you.

I'm frustrated and I'm angry. This past weekend, we saw two mass
shootings occur within 13 hours of each other, taking 31 lives and injuring
many more. In Chicago, 59 people were shot over the weekend. The week before?

Another mass shooting in Gilroy, California. It is clear that our
country is facing a public health crisis and something needs to be done to
address gun violence. Yet, Congress has time and again failed to act.

That's why I want to hear from you. What do you think should be
Congress's focus to prevent gun violence? Universal Background Checks Mental
Health Resources Assault Weapons Ban Other As a hunter and former Army Ranger,

I've always respected the 2nd Amendment, and I also learned in the Army that
citizenship comes with duties and responsibilities to each other, so we can all
live without fear. As a father of two young kids, my heart breaks when I

hear that my daughter had a "bad guy" drill at school. This isn't the
environment I want my kids to grow up in and I know millions of parents feel
the same. That's why I'm proud to have supported universal background

checks and an assault weapons ban. But that's not enough. I believe we must
address the mental health crisis in our country which is why I fought to
increase funding for mental health resources at our schools as well as

supported a bipartisan bill to establish a national threat assessment strategy
to help prevent violence. There is a lot that needs to be done and I hope
to hear from you on how we can work together to solve this crisis. Best, Jason
