From: Rep. Jason Crow &lt;Rep.JasonCrow@mail.house.gov>; Sent: Thursday, October 17, 2019 Subject: Medicare Open Enrollment Just Began Hi John, The open enrollment period for Medicare just started! From now until December 7th, you have the opportunity to reevaluate your healthcare and search for lower premiums and new benefits. For those who recently turned 65 and are newly eligible for the program, now is the time to sign up. Rep. Crow spoke about the importance of protecting Medicare and lowering prescription drug prices at his Seniors Town Hall in August. Changing health insurance plans can be a difficult and confusing process. As we enter the open enrollment period, I wanted to reach out with some key information and make sure you had my office's contact

information if you'd like some help. Here are a few frequently asked questions:

What is the Medicare Open Enrollment Period? Every year, there are changes to Medicare health and prescription drug plans. Costs and premiums, coverage, and in-network providers and pharmacies will change. This year, open enrollment goes from Tuesday, October 15 to Saturday, December 7. It's your opportunity to reevaluate your Medicare plan and make an educated decision based on your needs to change or keep your Medicare health plan and prescription drug coverage for 2020.

Am I eligible for Medicare? Medicare is available for Americans 65 or older and people with disabilities or End Stage Renal Disease. Everyone on Medicare is eligible for its prescription drug coverage. How do I know if I need to change plans? If you're enrolled in Medicare, you should review your plans materials, like the "Evidence of Coverage" (EOC) and "Annual Notice of Change" (ANOC). If your plan is changing, then you should make sure to understand the changes and be confident that the plan will continue to meet your needs for 2020. For example, make sure that any prescription drugs you need to take will continue to be covered in your current plan or in your new plan if you decide to switch. If you're confident that the plan will continue to meet your needs for the coming year, then you don't need to take any action and you will be automatically enrolled for 2020. Where can I find more information about Medicare or compare specific plans?

You can call 1-800-MEDICARE or visit [medicare.gov](http://medicare.gov) for more information. In Congress, I've learned that Medicare can be utilized to help lower the cost of prescription drugs and recently helped introduce the The Freedom from Price Gouging Act which ensures that drug costs are contained under Medicare. The bill would prevent Big Pharma from jacking up drug prices on medication to increase their bottom line and ensure drug costs stay in line with the cost of living so Colorado families can have access to and afford the health care they deserve. The December 7 deadline will be here before you know it, so make sure to visit [www.medicare.gov](http://www.medicare.gov) soon to compare plans, check your eligibility, and change your coverage. If you have any questions about the process, my team and I are here to help. You can reach us through our website, [crow.house.gov](http://crow.house.gov), or at our office at (720) 748-7514. On a different note, if we haven't gotten the chance to meet in person yet, I hope we do soon. I am always around the district hosting town halls, touring small businesses, and attending community events. If you're interested in staying in touch, you can sign up for my newsletter [here](#).
