Hi Quorum Control,

Gas prices have continued to be on the rise in Louisiana, with Louisianans paying nearly \$4 a gallon. Whether it's the fuel in your car, or food at the kitchen table - inflation continues to make life harder for every American to make ends meet. Even CNN detailed the reality American families are facing: “[US inflation means families are spending \\$709 more per month than two years ago](https://iqconnect.house.gov/iqextranet/iqClickTrk.aspx?&cid=LA05JL&crop=15103QQC)”. I want to hear directly from you and the impact the economy has had on your household:

Is your family paying more at the gas pump under the Biden Administration's energy policies?

 
 
 

As your voice in Washington, my commitment is fighting for common sense energy reforms that increase domestic production, cut wasteful government spending, and lower costs for our hardworking families. I joined my House Republican colleagues by passing the Lower Energy Costs Act, which will reverse the Biden Administration's disastrous policies and unleash the power of American energy.

H.R. 1, The Lower Energy Costs Act

- Increase domestic energy production
- Reform the permitting process for all industries
- Reverse anti-energy

policies advanced by the Biden Administration

- Streamline energy infrastructure and exports
- Boost the production and processing of hardrock minerals, including critical minerals

I appreciate you sharing your thoughts. My team and I are here to serve you. Please feel free to always reach out directly to my office when you have questions, comments, or concerns.
