Friend,

Last week, President Biden released his FY2024 budget proposal, offering an insight into his administration's priorities for the coming fiscal year. Unfortunately, the President's budget is filled with half-truths and misguided policy priorities that do nothing to honestly address the challenges our nation faces.

President Biden's budget proposes billions in unnecessary spending and devastating tax hikes at a time when inflation and the economy remain the top concerns for Americans. Hardworking families should not have to be the creditors funding this administration's liberal pet projects.

The president’s budget reflects values and priorities—including advancements of the Green New Deal agenda and increased regulations of American industries—that do not align with those of North Texans and the American people. What our country needs is a practical budget that will allow the federal government to execute its defined duties without creating a deficit that will cripple future generations of Americans. I am proud to be working on the Republican Study Committee Budget that provides real options to balance the budget and tackle our debt.

I remain committed to working across the aisle to deliver results for the American people while delivering on our promise to break the current trend of out-of-control spending. Deficit reduction should be a bipartisan issue, and I stand willing to work with anyone to expand our economy and empower individuals. I am honored to serve you in Congress and look forward to continuing to keep you up to date on my work for you in Congress.

Sincerely,

Member of Congress
