Courtney. </span>  <span
style="font-size: 14pt; color: #000000;">I was recently in Norwich to catch up
on Norwich Public Utilities' ongoing work to replace old natural gas pipelines.
Some pipelines running across the city are from the Civil War era and are in
desperate need of repair.</span> <p style="color: #18416a; text-align: desperate need of repair."

alt="Image"></span>  <span style="font-size:
14pt;">The Norwich pipeline replace project is made possible by over $20
million in funding from the federal Infrastructure Law that I helped secure.
Norwich Public Utilities and local union workers are making tremendous progress
in replacing the old pipelines. </span>  <p style="text-align:
left;"><span style="font-size: 14pt;">The project was supposed to take 25
years, but will now take just five years because of the influx of federal
funding. </span><span style="font-size: 14pt;">Ultimately, this project
will make the system safer and our air cleaner - at no cost to the natural gas
customers. </span>  <span

14pt;">The first phase of this work to replace the lines began in late October
and will be completed by the end of the year. The preliminary schedule for
replacement work is along Asylum Street, from Grant Court to West Main Street.
The road will be resurfaced next spring. </span> <br>><span
style="font-size: 14pt;"> </span> <br><span style="font-size: 14pt;">In
the Spring of 2025, work will move to North Main Street, from Burnham Square to
Boswell Avenue, and then from Boswell Avenue along North Main Street to St.
Regis Avenue, as well as along 4th Street, from North Main Street to Central
Avenue. </span> <span style="font-size:
